Expiry No. LE-2004-002

IN THE MATTER OF a finding made by the Canadian International Trade Tribunal on May 1, 2000, in Inquiry No. NQ-99-003, concerning:

IODINATED CONTRAST MEDIA USED FOR RADIOGRAPHIC IMAGING, IN SOLUTIONS OF OSMOLALITY LESS THAN 900 MOSM/KG H₂O, ORIGINATING IN OR EXPORTED FROM THE UNITED STATES OF AMERICA (INCLUDING THE COMMONWEALTH OF PUERTO RICO)

NOTICE

On June 1, 2004, the Canadian International Trade Tribunal (the Tribunal) issued Notice of Expiry No. LE-2004-002 relating to the aforementioned finding. Persons or governments requesting or opposing the initiation of an expiry review of this finding were requested to file written submissions containing relevant information, opinions and arguments with the Secretary of the Tribunal not later than June 23, 2004.

The Tribunal received no submission in support of a review and continuation of the said finding. Consequently, no expiry review of this finding will be initiated.

Pursuant to the *Special Import Measures Act*, a finding of injury or threat of injury and the associated special protection in the form of anti-dumping or countervailing duties expire five years from the date of the finding, unless an expiry review has been initiated.

In light of the foregoing, the Tribunal hereby gives notice that, pursuant to paragraph 76.03(1)(b) of the *Special Import Measures Act*, the finding made by the Tribunal on May 1, 2000, in Inquiry No. NQ-99-003 will expire on April 29, 2005.
