Dumping and Subsidizing

DETERMINATION

Preliminary Injury Inquiry
No. PI-2018-002

Cold-rolled Steel

*Determination issued
Tuesday, July 24, 2018*

IN THE MATTER OF a preliminary injury inquiry, pursuant to subsection 34(2) of the *Special Import Measures Act*, respecting:

COLD-ROLLED STEEL

PRELIMINARY DETERMINATION OF INJURY

The Canadian International Trade Tribunal, pursuant to the provisions of subsection 34(2) of the *Special Import Measures Act*, has conducted a preliminary injury inquiry into whether the evidence discloses a reasonable indication that the alleged injurious dumping and subsidizing of cold-reduced flat-rolled sheet products of carbon steel (alloy and non-alloy), in coils or cut lengths, in thicknesses up to 0.142 inches (3.61 mm) and widths up to 73 inches (1854 mm) inclusive, originating in or exported from the People's Republic of China, the Republic of Korea, and the Socialist Republic of Vietnam, and excluding: a) organic coated (including pre-paint and laminate) and metallic coated steel; b) steel products for use in the manufacture of passenger automobiles, buses, trucks, ambulances or hearses or chassis therefor, or parts thereof, or accessories or parts thereof; c) steel products for use in the manufacture of aeronautic products; d) perforated steel; e) stainless steel; f) silicon-electrical steel; and g) tool steel, have caused injury or retardation or are threatening to cause injury to the domestic industry.

This preliminary injury inquiry follows the notification, on May 25, 2018, that the President of the Canada Border Services Agency had initiated investigations into the alleged injurious dumping and subsidizing of the above-mentioned goods.

Pursuant to subsection 37.1(1) of the *Special Import Measures Act*, the Canadian International Trade Tribunal hereby determines that there is evidence that discloses a reasonable indication that the dumping and subsidizing of the above-mentioned goods have caused or are threatening to cause injury to the domestic industry.
