## DETERMINATION

Preliminary Injury Inquiry  
No. PI-2018-004

Carbon Steel Welded Pipe

*Determination issued  
Tuesday, September 18, 2018*

IN THE MATTER OF a preliminary injury inquiry, pursuant to subsection 34(2) of the *Special Import Measures Act*, respecting:

**CARBON STEEL WELDED PIPE**

**PRELIMINARY DETERMINATION OF INJURY**

The Canadian International Trade Tribunal, pursuant to the provisions of subsection 34(2) of the *Special Import Measures Act*, has conducted a preliminary injury inquiry into whether the evidence discloses a reasonable indication that the alleged injurious dumping of carbon steel welded pipe, commonly identified as standard pipe, in the nominal size range from ½ inch up to and including 6 inches (12.7 mm to 168.3 mm in outside diameter) inclusive, in various forms and finishes, usually supplied to meet ASTM A53, ASTM A135, ASTM A252, ASTM A589, ASTM A795, ASTM F1083 or Commercial Quality, or AWWA C200-97 or equivalent specifications, including water well casing, piling pipe, sprinkler pipe and fencing pipe, but excluding oil and gas line pipe made to API specifications exclusively, originating in or exported from the Islamic Republic of Pakistan, the Republic of the Philippines, the Republic of Turkey and the Socialist Republic of Vietnam, has caused injury or retardation or is threatening to cause injury to the domestic industry.

This preliminary injury inquiry follows the notification, on July 20, 2018, that the President of the Canada Border Services Agency had initiated an investigation into the alleged injurious dumping of the above-mentioned goods.

Pursuant to subsection 37.1(1) of the *Special Import Measures Act*, the Canadian International Trade Tribunal hereby determines that there is evidence that discloses a reasonable indication that the dumping of the above-mentioned goods has caused or is threatening to cause injury to the domestic industry.
