## DETERMINATION

Preliminary injury inquiry  
PI-2024-002

Concrete Reinforcing Bar

*Determination issued  
Tuesday, July 2, 2024*

IN THE MATTER OF a preliminary injury inquiry, pursuant to subsection 34(2) of the *Special Import Measures Act*, respecting:

## CONCRETE REINFORCING BAR

### PRELIMINARY DETERMINATION OF INJURY

The Canadian International Trade Tribunal, pursuant to the provisions of subsection 34(2) of the *Special Import Measures Act* (SIMA), has conducted a preliminary injury inquiry into whether there is evidence that discloses a reasonable indication that the dumping of hot-rolled deformed steel concrete reinforcing bar in straight lengths or coils, commonly identified as rebar, in various diameters up to and including 56.4 millimetres, in various finishes, excluding plain round bar and fabricated rebar products, originating in or exported from the Republic of Bulgaria, the Kingdom of Thailand, and the United Arab Emirates (the subject goods), has caused injury or retardation or is threatening to cause injury, as these words are defined in SIMA. The product definition also excludes “10 mm diameter (10M) rebar produced to meet the requirements of CSA G30 18.09 (or equivalent standards) that is coated to meet the requirements of epoxy standard ASTM A775/A 775M 04a (or equivalent standards) in lengths from 1 foot (30.48 cm) up to and including 8 feet (243.84 cm)”.

This preliminary injury inquiry follows the notification, on May 3, 2024, that the President of the Canada Border Services Agency had initiated an investigation into the alleged injurious dumping of the subject goods.

Pursuant to subsection 37.1(1) of SIMA, the Tribunal determines that there is evidence that discloses a reasonable indication that the dumping of the subject goods has caused or is threatening to cause injury to the domestic industry.
